STATEMENT OF WORK (“SOW”)

MADEUP MODELS COMPANY – FORTINET DEVICE REPLACEMENT

2026-07-04
BDO Digital, LLC
Garrett Nail, Jason Cooper

BDO USA refers to BDO USA, P.C., a Virginia professional corporation, also doing business in certain jurisdictions with an alternative identifying abbreviation, such as Corp. or P.S.C.

BDO USA, P.C. is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

1 STATEMENT OF WORK

This Statement of Work ("SOW") is provided to Madeup Models Company ("Madeup Models", "Client", or "Company") for the services described herein ("Services"), to be provided by BDO Digital, LLC ("BDO" or "we").

Client acknowledges that Client previously executed a letter dated July 11, 2024, and accompanying Terms and Conditions (collectively, the "Services Agreement") which are incorporated by reference into this SOW. The Services Agreement along with this SOW constitutes the agreement ("Agreement") between Client and BDO.

By executing this Statement of Work, you represent that Client is not owned or controlled, directly or indirectly, by one or more Russian citizen(s), Russian national(s), persons physically located in Russia or entity(s) organized under the laws of Russia. You agree that if at any time while BDO is providing services to Client the foregoing representation is no longer true, you will immediately notify BDO.

2 BACKGROUND

Madeup Models Company has a high-availability pair of Fortinet FortiGate FG900A appliances in Elgin approaching end-of-life (2026-08-17). They are looking for BDO's assistance to deploy a replacement devices, including design, strategy, and onboarding to Managed Services for firewall monitoring.

This will serve to keep the business-critical network infrastructure current and supported while providing improved performance and scalability.

3 OBJECTIVES

Key objectives of this project include:

- Plan for deployment of replacement firewalls in Elgin.
- Deploy and configure replacement firewalls in a High Availability (HA) pair.
- Cutover to the replacement firewalls.

4 SCOPE

The items within the scope of this project are:

4.1 Discovery and Design Phase

- One (1) one-hour discovery and design session to review the following:
  - Define required firewall settings:
    - Software versions of existing appliances.
    - NAT rules, routing, DHCP, VPN, VLANs, and wireless configuration.
    - Review and document current firewall configurations and integrations with existing network devices.
    - Evaluate WAN and LAN connection.
    - Plan for as many as twelve (12) associated networks.
- Develop a high-level plan for performing the deployment and configuration of new devices and after-hours cutover, with the goal of minimizing business disruption:
  - Initial preparation activities.
  - Software settings and setup procedures.
  - Coordinate upgrade timing and scheduling.
  - Recommendations and best practices.
  - Develop deployment plan.
- Present and propose recommended Fortinet FortiGate firewall deployment plan.
  - Receive Client approval (via email) prior to beginning implementation.

4.2 Deployment and Cutover Phase

- Build a new firewall pair according to approved design including:
  - WAN connectivity.
  - Internal network ports and configurations for integration.
  - Onsite for up to a single (1) business day to rack, cable and label appliances and all connections.
  - Document step-by-step cutover instructions.
- Perform cutover during schedule maintenance window.
  - Coordinate timing of firewall setup.
  - Provide up to four (4) hours of remote after-hours support.
- Perform testing and validation of replacement firewalls.

- Provide up to eight (8) hours of next-day post-deployment support
- Facilitate onboarding to Managed Services for firewall monitoring.

4.3 Documentation and Knowledge Transfer

- Complete as-built documentation of deployed HA pair.
- Conduct up to one (1) knowledge transfer session with Client IT team.

The items within the scope of this project are:

4.4 Operations

- Change management
- Knowledge transfer to Managed Services
- Internal documentation

4.5 Project Management

- Project initiation and tracking
  - Requirements and kick-off
  - Progress updates
  - Project closure
- Formal change requests (as needed)
- Deliverables and quality review

5 OUT OF SCOPE

The items not included within the scope of this project are:

- Active Insights & Cybersecurity Insights Health Check.
- Removal or decommissioning of replaced appliances.
- Network or datacenter reconfiguration of other wireless, routing, firewall, and/or switching infrastructure.
- Redesign, or modification of network topology at other sites; Fortinet will be configured with an implementation for the new office location only.
- Ongoing monitoring and alerting outside of the current Managed Services contract.
- End-user support, ITSM help desk, or onsite staffing at customer locations (BDO will provide escalation support to Client IT staff only).

- Troubleshooting, configuration, implementation, or remediation efforts of any other solutions outside of the project scope (Section 4) as defined above.
- Post-project support, management and maintenance (refer to the Post-Project Support for the proposed option)

6 ESTIMATE

The cost estimate to complete the Project is $14,440. This Project will be conducted as a fixed fee based on the scope outlined above.

BDO will invoice Client one-half of the project budget at the commencement of the project and the final half of the budget at the completion of the project. Client agrees to pay within the invoice terms.

This estimate may be modified by BDO upon further discovery of Project requirements and BDO involvement. If additional budget is needed to complete the Project, it will require that a Project Change Request be duly authorized by Client.

7 TIMELINE

The Project is expected to take 2-4 weeks from the date of project commencement. Any delays that extend the project duration beyond 4 weeks may require a Project Change Request to increase cost estimates.

The project start date has not been defined. BDO will work with Client to develop an acceptable project schedule and timeline.

8 ACCEPTANCE OF SERVICES AND DELIVERABLES

If Client believes that any particular Service or any particular Deliverable has not been provided in a professional manner consistent with this Agreement, Client must notify BDO in writing of the same within 20 days of the date of delivery of the applicable Service or Deliverable, at which time BDO will make all commercially reasonable efforts to re-perform such Services or repair or replace such Deliverable, to the Client's satisfaction. All Services or Deliverables not objected to within such 20 day-period will be deemed to have been accepted by the Client. BDO expressly disclaims any warranty of merchantability or fitness for a particular purpose and further disclaims all other representations and warranties.

9 TRAVEL

TRAVEL, LODGING, AND REASONABLE OUT-OF-POCKET EXPENSES ARE NOT INCLUDED IN THE ESTIMATE OF FEES AND COSTS AND WILL BE BILLED SEPARATELY.

Travel time will be billed at the hourly rates identified per role in this statement of work unless the travel time is associated with seven or more billable hours of work for that calendar day.

BDO will consult with Client to identify preferred travel **ARRANGEMENTS, DISCOUNTS, OR CORPORATE PARTNERSHIPS.**

10 ASSUMPTIONS & CONTINGENCIES

- All estimated fees and costs contained herein remain valid if the SOW is executed by Client within 30 days of receipt.
- Access to all existing relevant documents will be provided as needed.
- Access to technical and functional personnel will be made available as required.
- Appropriate access to required systems and services will be granted to BDO staff as needed.
- All work will be completed during normal business hours. After hours work will be billed at 1.5 times the standard billing rate.
- Normal business hours are 8:30 AM to 5:00 PM, Monday through Friday, excluding BDO holidays.
- BDO will conduct high-level testing of the solution; Client will be responsible for testing all functionality and then report issues to BDO.
- Client is responsible for purchasing all hardware, software and licensing.
- Non-Solicitation. BDO incurs great expense in hiring and training its personnel. Accordingly, during the period beginning with the effective date of this Addendum and ending twelve (12) months after the date of the last invoice from BDO to Client, neither the Client nor its respective affiliates will offer employment to or hire any current or recent BDO employee who performed services for the Client within the last twelve (12) months, without the prior written consent of BDO. “Recent Employee” shall include any individual employed by BDO during the preceding twelve months. “Employment” shall include any form of employment, consulting, independent contractor relationship, or other arrangement in which an individual will directly or indirectly perform services or work for, or on behalf of, Client. While the parties agree that a breach of this provision would cause BDO to suffer damages, including without limitation the time and cost in recruiting and training a new employee, the actual amount of damages, loss or harm from a breach of this provision is difficult to estimate with certainty. In the event that Client breaches this clause, Client shall pay BDO an amount equal to fifty

percent (50%) of the hired employee's prior twelve (12) month compensation with BDO, which the parties agree is a reasonable estimate of the damages that would be caused by such breach.

11 APPROVAL FOR FORTINET REPLACEMENT

In Witness Whereof, the parties hereto have caused this Statement of Work to be executed by their duly authorized representatives who have the power and authority and who have obtained all approvals, authorizations and consents necessary to enter into this Agreement on behalf of the party set forth below for whom the authorized signatory is executing this Agreement.

POE Template – Modern Work & Security Usage (Biz Apps is on page 3)

POE gives Microsoft the opportunity to validate that partners have been involved in driving Usage growth. POE ensures the right partners are rewarded for investing their resources to drive world class solutions for our shared customers and prospects. The purpose of this template is to assist Partners in providing POE that contains all requisite elements of an approvable claim. *If you have existing documentation that contains the elements of valid POE it can be submitted in lieu or in support of this template.*

- Use of this template is recommended when submitting CPOR claims for Modern Work and Security Usage association.
- Alternate POE documents are acceptable if all requisite elements are included.
- Incentive and policy resources available here: **https://partner.microsoft.com/membership/partner-incentives**

POE Template Instructions:

Section 1: Select product(s)/workload(s) and activity type.
Section 2: Provide details on engagement activities & supporting documentation.

Section 3: Fill out all information in the Partner and Customer Information section. Ensure that the Customer information matches the information entered in your CPOR claim in Partner Center.

Section 3.1: Provide valid customer acknowledgment* dated within 12 months of claim submission. *Physically or electronically signed proof of execution documentation by customer (Printed name, signature, title, and date). Please note the electronic signature needs to be an e-signature with a valid certificate of authenticity. This can also be an e-mail confirmation describing the work. Original .msg email communication between Partner and Customer showing clear proof of work activity and customer approval.

Recommended: Provide supporting documentation demonstrating your claimed work activity. If the nature of the work changes over the course of the engagement, be sure to provide updated POE to maintain CPOR association. Examples of acceptable materials include but are not limited to:

• Statement of work • Solution architecture • Service tickets	• Service logs • Visual diagrams • BREP Partner	• Deployment roadmaps • Migration plans • Service descriptions	• Milestones • Timelines • User counts
